

Today's vehicles are more complicated than ever. The costs to repair them have increased greatly and it is near impossible to do the repairs yourself. A **Vehicle Service Contract by My Car Armor** provides you with protection against unexpected, costly vehicle repairs after the security of the manufactures' warranty ends. The expense of these repairs is ever-increasing.

As a new car owner, you already know that you need auto insurance, which covers things like car accidents, theft, fires, and injuries - which can cost you in the thousands. Like auto insurance, a **Vehicle Service Contract** can provide you with the necessary protection to give you peace of mind and protect you from the added stress of the high costs of mechanical breakdowns that may occur, and usually do occur, at the most inconvenient time. Your car is needed to get to work, school, daily chores or even that planned vacation. Mechanical breakdowns can also cause you unneeded stress in your life. The cost of being without a car when it is down for repairs is huge. Our **Vehicle Service Contract** provides you with the peace of mind that with those expensive repairs you will be covered, keeping you from needing to pull from your savings or having to take out a loan to pay for repairs.

And much more.....

Our **Vehicle Maintenance Program by My Car Armor** provided in this package helps take the guesswork out of your car's routine maintenance, providing you with:

Oil changes
Battery
Brakes
Engine Diagnostic and Alignment check
Transferrable
and more.

A few of the big benefits of the Maintenance program is that it provides you with the detection of potential mechanical failures before they become a big cost to you. It also provides you with a digital record of maintenance completed and that will help when it comes time to replace your car possibly getting you a higher price.

Car owners prefer a pre-paid maintenance plan because it means they'll have one less thing to think about. If the maintenance is paid for and can be preformed at the location of your choice.

Regular maintenance and repairs are a must do part of being a responsible vehicle owner but can cost you. A 2016 study by AAA reported that the upkeep alone for your vehicle will cost an average of \$792 per year to keep your car in good running order and that amount has risen even higher today.

PROVIDING:

Prompt Payment: The service facility is paid directly! You do not have to pay and then wait for reimbursement.

Toll Free Claims Service: Claim service can be accessed via our toll-free number 800-231-0965

North American Coverage: You are covered anywhere in the U.S. or Canada
